Oregon 2017 Regional Visitor Report The Coast

Introduction

- ✓ Longwoods International began tracking American travelers in 1985, and has conducted large-scale syndicated visitor research quarterly since 1990.
- ✓ In 2007, our proprietary Longwoods **Travel USA®** program was migrated from mail to online, with the benefits of rapid turnaround, enhanced flexibility and interactivity, as well as greater respondent involvement.
- ✓ It is currently the largest ongoing study conducted of American travelers, providing our clients with more reliable data and greater ability to home in on key market segments of interest.
- ✓ This report provides:
 - ✓ Estimates of 2017 overnight visitor volume and travel expenditures for Oregon as well as for the Coast Region in particular
 - ✓ Strategic intelligence about the Coast Region's overnight travel market including:
 - ✓ Key sources of business
 - ✓ Visitor profiling
 - ✓ Trip characteristics

Methodology

- For each of the 2016 and 2017 travel years, a representative sample of visitors to the Coast Region was identified through the **Travel USA®** survey:
- Respondents who visited Oregon were asked to identify which of the state's seven tourism regions they spent time in with the aid of a visual map.
- Of the survey sample of 7,919 overnight trips taken to Oregon in 2016 and 2017:
 - 1,954 included a visit to the Coast Region
 - Of those, 1,290 were **marketable trips**

Analytical Note

- The results of this report are based on two time frames:
 - Market size and structure estimates for the Coast Region are reported for the 2017 travel year, as are all Oregon state norms.
 - To maximize statistical reliability, other Coast Region data (trip characteristics and visitor profiles) are based on two years' combined sample from 2016 and 2017 unless otherwise indicated.
